Functionality

No matter the material, Sabert's Hot Collection boasts a full line of items able to withstand medium and hot temperatures.

Sustainability

With compostable and recyclable options, Sabert's products show consumers a commitment to the environment with no sacrifices.

Versatility

Pulp and plastic options are available in a variety of shapes and sizes and are perfectly suited for nearly any hot or cold food imaginable.

Diverse Packaging That Delivers

- **Versatility:** From natural molded pulp and polypropylene materials, Sabert's Hot Collection features an assortment of containers, bowls, lids and more to fit any need.
- **Quality and Performance:** Manufactured in Sabert's owned and operated state-of-the-art facilities, our high-quality products are made with customers' needs at the forefront.
- **Safe and Secure:** High-quality materials maintain stability and structure even under the hottest conditions, while tight-fitting lids guard against spills.

NEW! **Family Sized Containers**

Polypropylene Options

- **Family Sized Take Out Options:** Designed to provide extra strength for heavy weight food options.
- **Reduce and Recycle:** Sabert's polypropylene is recyclable* and sustainably designed to minimize plastic use while maintaining quality and functionality.
- **Any Food, Any Size:** Addresses consumers' demand for menu variety with multiple sizes and shapes perfect for everything from appetizers to entrées.

Compostable Pulp Options

- **Completely Compostable:** Unlaminated pulp bases are certified industrial compostable by BPI and Vinçotte, and certified home compostable by Vinçotte.**
- **Safe and Secure:** High-quality materials maintain stability and structure even under the hottest conditions, while tight-fitting lids guard against spills.
- **Pure Packaging:** Made from bagasse, a by-product of sugar cane processing.

*Where facilities exist. (Some may not be available in your area.)

**Unlaminated pulp items may be used in both industrial and back yard composters. (Compliant to ASTM 6868 as certified by BPI and Vinçotte. Ok compost Home as certified by Vinçotte.) Laminated pulp products are only industrially compostable (compliant to ASTM6868 as certified by BPI) . Some industrial composters may not be available in your area.

Boost Sales with Carry-Out Business!

- Extends the dining experience by keeping foods looking, tasting and smelling the way they should well past the restaurant or store doors.
- Fits any food type at high temperatures with a variety of available options. Versatile lids also fit many container sizes, reducing SKUs.
- Allows quality, structure and temperature of takeout to remain the same as dine-in food options.

Perfect Performance and Presentation

- Protects foods in the car or in a bag through easy stackability and leak resistance.
- Displays all types of foods with high contrast using Sabert's simple and elegant all-natural pulp and black polypropylene options.
